

		Wire Color Code	
1 Headlight unit, left		ws = white	
a High beam		gn = green	
b Low beam		br = brown	
c Standing/parking light		ge = yellow	
d Turn signal light		gr = grey	
e Fog light		rs = pink	
2 Headlight unit, left		b1 = blue	
a High beam		rt = red	
b Low Beam		sw = black	
c Standing/parking light		el = ivory	
d Turn signal light		nf = neutral	
e Fog light		vi = purple	
3 Brake fluid indicator light switch			
4 Brake light switch			
5 Parking brake indicator light switch			
6 Instrument cluster			
a Turn signal indicator light, left			
b Turn signal indicator light, right			
c Fuel reserve warning light			
d Fuel gauge			
e Electric clock			
f Rheostat, instrument lights			
g Instrument lights			
h Charge indicator light			
i High beam indicator light			
k Brake fluid and parking brake indicator light			
7 Dual-tone horns (fanfares)			
8 4-way warning flasher switch/timer			
9 Wiper motor with interval timer			
10 Washer pump			
11 Cigar lighter			
12 Glove compartment light			
13 Glove compartment light switch			
14 Solenoid valve, automatic transmission			
15 Starter-lockout and back-up light switch			
16 Signal system contact			
17 Combination switch			
a Turn signal light switch			
b Passing light switch			
c Dimmer switch			
d Wiper switch			
e Switch for wiping speed			
18 Fuse box			
19 Kick-down switch			
20 Door contact switch, front, left			
21 Front dome light w/switch			
22 Door contact switch, front, right			
23 Rotary light switch			
24 Diesel ignition switch			
25 Blower switch			
26 Pre-resistance, blower motor			
27 Glow starter switch			
28 Glow plug resistance control			
29 Glow plugs			
30 Trunk light			
31 Plug connection, cable to rear components			
32 Blower motor			
33 Fuel gauge sensor			
34 Radio			
35 Alternator			
36 Voltage regulator			
37 Starter			
38 Battery			
39 Tail light unit, right			
a Turn signal light switch			
b Tail/parking light			
c Back-up light			
d Brake light			
40 License plate light			
41 Tail light unit, left			
a Turn signal light			
b Tail/parking light			
c Back-up light			
d Brake light			

Example:

Wire designation 1.5 gr/rt

Basic color gr = grey

Identification color rt = red

Cross section of wire 1.5 = 1.5 mm²
